  Personnel management e.g. cleaning companies, time attendance

- **Built-in fingerprint sensor**
  Capacitive fingerprint reader is insensitive to ambient lighting and more resist to contamination factors than some optical designs

- **Transmission**
  GSM / GPRS / SMS

- **Fingerprints storage**
  Internal memory for over 500 fingerprints; possibility of adding, erasing, transmitting of the patterns between devices

- **Data transmission**
  via OSM.2007 (XML)

- **Housing**
  Small, compact, portable, can be mounted on the wall. Mobile version is currently under construction.

- **Sabotage alarm**
  Tilt and shock sensor; prevention against unauthorized removal of the device from the wall

- **Configuration**
  Locally or remotely

- **Adding / canceling / authorization**
  Possibility of remote adding and canceling users; remote sending of fingerprints

TECHNICAL PARAMETERS

- **Reading method**
  Capacitive sensor

- **Number of fingerprints stored in the memory**
  500

- **Keypad**
  3 x 4, silicone

- **Optical signalisation**
  4 LED's

- **Power supply**
  5VDC, external Micro USB power supply

- **Operating time on backup power**
 Min. 5 hours

- **GSM Antenna**
  Built-in, possibility of connection external antenna

- **Dimensions**
  141mm x 91mm x 25mm
